DATA TRANSMITTAL

\\inspection\fel\NPM1F\020529a

TO: David Waldman

DATE: 5th Jun, 2002

FROM: Chris Curtis

Checked: # : F783

DETAILS:

Below is the location of the multi slit viewer flange (IMS1F01) located upstream of the first full cryomodule. The location refers to the center of the upstream face of the flange. Values are in meters and based on the machine coordinate system of the FEL.

Z = 80.0043 X = 20.0018 Y = 105.0020
