

Jefferson Lab, Newport News, VA

HUGS 2009

24th Annual Hampton University Graduate Studies Program

June 1 - 19, 2009

The HUGS at Jefferson Lab Summer School is designed for graduate students and focuses primarily on experimental and theoretical topics of current interest in strong interaction physics. The program is simultaneously intensive, friendly, and casual, providing students many opportunities to interact with internationally renowned lecturers and JLab staff, as well as with other graduate students and visitors.

APPLICATION DEADLINE:

April 12, 2009

Program Topics will include:

- Transverse (Spin) Structure of Hadrons
 - The HlgS Science Program
 - Nucleon Form Factors
 - Hadrons in the Quark Model
 - Large- N_c QCD and Skyrme Models
 - Effective Field Theories for Few-Nucleon Systems
 - High-Energy Nuclear Physics and QCD
- Matthias Burkardt (New Mexico State)
Calvin Howell (Duke)
Mark Jones (Jefferson Lab)
Winston Roberts (Florida State)
Norberto Scoccola (Buenos Aires)
Bira Van Kolck (Arizona)
Christian Weiss (Jefferson Lab)
