

March 25, 2019

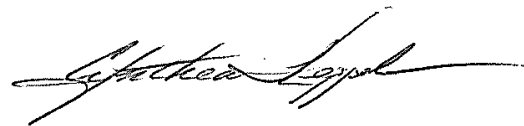

Dr. James Dunne & Dr. Dipangkar Dutta  
Department of Physics and Astronomy  
Mississippi State University  
Mississippi State, MS 39762

Dear Dipangkar and Jim,

This letter is to affirm that, contingent on the availability of funds, it is our intent to provide 50% of the salary and fringe benefits as proposed for your postdoc not including the overhead costs for the 3-year, 2019-2022 grant cycle. The postdoc will be dedicated to the preparation and installation of the Tagged Deep Inelastic Scattering (TDIS) experiment in Hall-A, including working towards a comprehensive simulation and robust tracking for the recoil detector (a multi time projection chamber or mTPC), as well preparing the large angle calorimeter (LAC) for installation. These are critical tasks for the successful preparation of the TDIS experiment and as co-spokespersons of the TDIS experiment.

If you need any further assistance, please do not hesitate to ask.

Sincerely,

Dr. Cynthia Keppel  
JLab Hall A & C Leader
