

Schedule announced at meeting for drafts.

Post outlines by 5/15/07

Post first drafts by 6/15/07

Post completed drafts by 7/15/07

External readers to read drafts within 1 to 2 weeks

Iterations between writing groups and external readers

Final version posted by 8/31/07

Use [LRP template].doc file for drafts

Page estimates:

20 pages in word format (.doc pages) – including space taken by figures for RHIC, JLAB and Neutrinos and FS plus space taken by your sidebars

Preferably 20 pages but up to 25 for NS and NA (last time this was about 40 .doc pages)

EIC – up to six pages

Facilities up to 16 .doc pages

Education, workforce, outreach – up to 12 pages

International – up to 10 pages

Applications – up to 12 pages

Applications and Education/Workforce will have sidebars in the science sections that will not count against the page estimates above

(This will lead to over 100 pages in printed form by my count)
