

2008 LRP

Executive Summary

If have this, will it (should it) summarize or should it be used to tell a story?

Overview and Recommendations

Science questions

Recent accomplishments

New tools needed to progress

Recommendations

Initiatives

- EIC
- SM program elements?
- Accelerator physics
- GRETA
- ?

NSCL – need to operate NSF flagship facility

LHC

Theory – topical centers and workforce issues

Need to maintain stable beam capabilities

University facilities – support while programs remain competitive

Education and workforce

Research program

National need and economic competitiveness

Constant effort budget comments

- Even constant effort budget must do (some form of) FRIB
- Discuss extensive pain this would cause
