

Run Manager Issues & Planning

Shift Scheduling:

- Will schedule Fall Run only now (Spring run scheduled in ~October)
- by institution (again)
- experienced individuals only as shift leaders

Shift Crews:

- **Last Run:** 4-person crew:
 - Leader, Target (& Magnet), Worker, Analysis
 - analysis worker on shift in counting room 24 hours/day
- **Coming run:** 3-person crew:
Leader, Target/Magnet, Worker
 - + 3-person analysis team (changes once/week):
 - analysis team members under Analysis Coordinator
 - work their own hours (but expect 56 hrs/week)
 - need not be in counting house
 - must attend daily meetings
 - meet with Analysis Coordinator daily

- No staggered shifts with three-person crew
- Require a minimum #shifts/person for publication rights (Fall + Spring run)
- Weekly meetings: chaired by Run Manager
- Report to Hall C meeting: Run Manager
- Shift Leaders: shift summaries
- Need deputies for on-site Experts
- Will be looking for run coordinators soon
- Beam periods not divided by 'Team' tasks this time; may be interleaved

Planning Teams

Team Leaders:

- *System Turn On:* Herbert Breuer and Klaus Grimm
- *Backgrounds/Empty target:* Serge Kox and Jeff Martin
- Q^2 : Christoph Furget and Paul King
- *Beam Properties and Monitoring:* Mark Pitt and David Armstrong
- *Systematics, Deadtime, & Asymmetries:* Betsy Beise and Damon Spayde
- *Beam polarization:* Dave Gaskell
- *Analysis:* Julie Roche
- *Re-Installation (?)* do we need a team?

- Planning has begun...
- Volunteers welcome on all the teams
