Below are the results from the hadron (right) spectrometer survey carried out on July 10 , 2003.

===== RESULTS ===== H071003A

The central ray of the spectrometer is at 12.522 degrees.
It is missing the defined target center by 2.83 mm downstream,
and -0.31 mm vertically (positive = up).

If the offset is corrected by secondary alignment, the
spectrometer will be at 12.503 degrees.
