Below are the current positions of the HPS Pair Spectrometer, chamber and calorimeter. These positions should be considered the pre aligned locations. The final alignment will be determined once the target/SVT is installed. Since the calorimeter was not fiducialized the coordinates are given to the tooling ball locations only. The positions are given in the CEBAF Machine coordinates. The deltas are listed in a beam following system where a positive X is to the beam left, a positive Y is up and a positive Z is downstream.

| Summary | Measured (M) |  |  | Ideal (M) |  |  | BFS delta (mm) |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
