Below are the results of the recent ESR Conduit as-found locations. The coordinate system is built using the I-beam flanges of the north wall, that defines the Z axis, and west wall defining the X axis. Positive Z is South, positive X is East. Values are in inches.

	X[in]	Z[in]
CONDUIT_1	195.50	154.08
CONDUIT_2	123.82	211.60
CONDUIT_3	136.03	435.05
CONDUIT_4	209.80	405.99
