Below are the results from the PREX target ladder survey carried out on March 16<sup>th</sup> along with the as-found vertical check on April 8<sup>th</sup>. The Z, X, Y coordinates are given in millimeters in a beam following system based on the ideal target location. A +X is to the beam left, A +Z is downstream, a +Y is up. A +yaw is counter clockwise looking from above, a +pitch is ccw looking from the beam right, and a +roll is cw looking from upstream.

LOCATION	Z	X	Y	YAW	PITCH	ROLL
Upper support frame		-0.35		+0.007	+0.050	+0.888
