

# Jefferson Lab Alignment Group

## DATA TRANSMITTAL

TO: A. Gavalya, J. LeRose

DATE: 8 March, 2001

FROM: C.J. Curtis

Checked:

# : A659

### DETAILS:

The top of the flange welded to the hall A center post was surveyed vertically on Mar 8, 2001. It was found to be 1286 mm below the ideal beam height. This value supercedes that given in DTM#485
