Below are the results from the hadron (right) spectrometer survey carried out on August 6th, 2003.

============= RESULTS ============ H080603A

The central ray of the spectrometer is at 17.994 degrees. It is missing the defined target center by 0.39 mm upstream, and -0.08 mm vertically (positive = up).

If the offset is corrected by secondary alignment, the spectrometer will be at 17.997 degrees.
