# ACCELERATOR SAFETY

## Workshop

AUGUST 15-17, 2017

JEFFERSON LAB

NEWPORT NEWS, VA

### Announcement

The annual DOE Accelerator Safety Workshop (ASW) will be held at Thomas Jefferson National Accelerator Facility on August 15-17, 2017. The workshop is an open forum for individuals affiliated with US or International accelerator facilities where each organization can present information/experiences on key operational and safety themes and share lessons learned.

### Topics Include:

- Major Accelerator Project Highlights
- Safety Configuration Management
- Hazard Assessment Methodology
- Decommissioning and Sustainability
- Succession Planning
- Safety Instrumentation and Software Applications
- ARR Experience
- Colloquium Talk/Work Planning and Control
- Safety Management Strategies and Systems
- Best Practices
