Jefferson Lab   CYBERVIRGINIA

PRESENTS

CYBER PHYSICAL SYSTEMS SUMMIT

September 20-22, 2016

Jefferson Lab
Newport News, Virginia

On September 20-22, 2016 the Commonwealth will be hosting a Cyber and Physical Systems Summit. The three day event will consist of roundtable discussions, plenary and panel presentations across the intersection of cyber and three vectors – Autonomy, Critical Infrastructure and Internet of Things (IoT). Participants in the Summit will engage in conversations surrounding challenges, opportunities, threats, and the associated policy and budgetary implications.
