

# What E-Discovery Means to DOE Contractor Information Technology

April 25, 2007

Rachel Claus

University Counsel for SLAC

James Burtnett

IT Liaison, Office of Legal Counsel for SLAC

# Required Elements

<b>E-Discovery Team</b>			
<b>CIO</b> Expert knowledge of IT Environment and E-Discovery	<b>IT Professionals</b> Expert knowledge of Hold Software and Protocols to place Holds on ESI	<b>IT Liaison</b> Expert knowledge of Legal & IT Environments and E-Discovery	<b>Legal Counsel</b> Expert knowledge of E-Discovery Laws

- Electronic functionality to enact litigation holds and suspend data destruction on ESI
- Documentation and inventory of all hardware, software & ESI storage and processing mechanisms
- Documentation, enforcement, and auditing of Retention and Destruction Policies
- Internal Litigation Hold Policies & Procedures and Roles & Responsibilities

# Roles & Responsibilities

<b>Counsel</b>	<ul style="list-style-type: none"><li>• Communicates Legal-IT requirements</li><li>• Develops Legal procedures with input from IT</li></ul>
<b>Chief Information Officer</b>	<ul style="list-style-type: none"><li>• “Most Knowledgeable IT Person” for discovery purposes</li><li>• May be required to testify; must have complete inventory of IT infrastructure, retention policies and data management procedures</li><li>• Collaborates with Legal</li></ul>
<b>IT Liaison</b>	<ul style="list-style-type: none"><li>• Serves as Legal Counsel and Litigation Representative</li><li>• Ensures Legal’s IT requirements met by electronic functionality</li><li>• Collaborates/Extensive interaction with IT Professionals to advance E-Discovery project</li></ul>
<b>IT Professionals</b>	<ul style="list-style-type: none"><li>• Work with IT Liaison to determine appropriate Hold software</li><li>• Work closely with CIO, Counsel and IT Liaison to ensure Legal “gets it right”</li><li>• Manage electronic functionality to enact ESI searches, Holds, and other requirements</li><li>• Activate data Holds upon request from Legal</li></ul>

# E-Discovery Functionality as a Standard Business Practice

- Establish and enforce Document Retention Policies
  - Good business practice
  - Supports development of E-Discovery process
- Obtain email and file search functionality (via software)
- Use for disaster recovery purposes

# Software Requirements

- Support Document Retention Policies
- Immediately suspend, collect and preserve all litigation-relevant ESI in its original format (“Duty to Preserve”)
- Halt applicable destruction protocols during Holds
- Search preserved ESI to reveal all lawsuit relevant information, including searches requested by opposing counsel
- Package relevant ESI in formats dictated by Meet and Confer session, per FRCP Rule 16(b)
- Provide Chain of Custody (Audit Trail) of ESI management
- Meet other IT needs

# Benefits for IT

- Disaster Recovery Mechanism
- Reduces size of databases and stored data
- Streamlines data archives and antiquated servers
- Enables quick and efficient response to Legal's ESI production requirements
  - Minimizes resource requirements during Holds

# Action Plan

- Understand the FRCP amendments:  
<http://judiciary.house.gov/media/pdfs/printers/109th/31308.pdf>
- Create Team (Counsel, IT Liaison, CIO & IT Professionals)
- Document What You Have:
  - How and where all ESI are stored, managed, and purged
  - Data retention policies
  - IT infrastructure
- Establish Functionality:
  - Software to efficiently manage Holds and package ESI
  - Roles and responsibilities for Hold process
