

May 4 - 5, 2006

# Workshop on Intersections of Nuclear Physics with Neutrinos and Electrons

Jefferson Lab  
Newport News, Virginia

## Topics will include:

- medium modifications to structure functions
- hadronization
- final state interactions
- nuclear parton distributions
- quark-hadron duality
- fundamental symmetries
- nucleon form factors

## Workshop Organizers:

C. Keppel (Hampton/JLab)  
W. Melnitchouk (JLab)  
J. Morfin (Fermilab)  
J. Nelson (William & Mary)  
R. Ransome (Rutgers)  
S. Wood (JLab)
