

# PESP 2008

Workshop on Sources of Polarized Electrons and High Brightness Electron Beams

October 1 - 3, 2008  
Jefferson Lab, Newport News VA

SPIN 2008  
UVA

## Workshop topics: ★ JLAB

Status of polarized electron beam programs  
New accelerator initiatives  
Unpolarized high current GaAs photoguns  
Polarized RF gun  
Photocathodes  
Extreme high vacuum  
Drive Lasers  
High Voltage  
Gun and Injector modeling  
Gun designs  
Spin polarized electron applications  
Polarimetry

## Local Organizing Committee:

M. Fazenbaker (conference secretary)  
J. Grames  
C. Hernandez-Garcia  
M. Poelker (chair)  
M. Stutzman  
R. Suleiman

## Scientific Advisory Committee:

K. Aulenbacher (MAMI/Univ. Mainz)  
Axel Brachmann (SLAC)  
J. Clendenin (SLAC)  
B. Dunham (Cornell)  
W. Hillert (ELSA/Bonn)  
Y. Mamaev (St.Petersburg)  
T. Maruyama (SLAC)  
T. Nakanishi (Nagoya Univ)  
C. Sinclair (Cornell)  
E. Tsentolovich (MIT-Bates)  
A. Terekhov (Novosibirsk)  
S. Wolfe (Univ. Virginia)

**Jefferson Lab**

Hosted by Jefferson Lab and Sponsored by the International Spin Symposium
