

Introduction to the new GSS E- Commerce System

Outline

- Overview
 - Differences from Webstock E-commerce
 - What to expect with the new system
- Special instructions regarding cookies: especially important for Macs
- Sample visit to GSS
 - Order from Newark (punch-out catalog)
 - Order from Grainger (punch-out catalog)
 - Order from JLab stockroom (static catalog)
 - Checkout to JLab system

Current Webstock Application

The screenshot shows the Jefferson Lab WebStock application. At the top, there are navigation tabs: Logout, Favorites, Query, Authorize, Admin, and View. Below this is a header section with 'Technical Stockroom and E-Commerce Requests' and 'Jefferson Lab WebStock'. A 'Breaking News' box reports a suspected overpricing by Renee Carter at 7954. The main content area is titled 'Top Level Catalog Index' and lists various suppliers and their products, including 'JLAB Onsite Technical Stockroom', 'Mech Supplies', 'Chemicals', 'Tools', 'Safety Shoes', 'Scientific Laboratory', 'Recycled Content Products', 'Mech Supplies', 'Electronics', 'Office Supply and Furniture', 'Computer Software & Supplies', 'Industrial Safety and Hygiene', and 'Fittings and Valves'. At the bottom, there is a search bar and a table with columns for 'Brake?', 'Org', 'Limit', and 'Spent'. The table shows one row with 'N' in the 'Brake?' column, 'MIS' in the 'Org' column, '\$300.00' in the 'Limit' column, and '\$0.00' in the 'Spent' column. There are also buttons for 'Show / Save / Submit Shopping Cart' and 'Saved Shopping Carts'.

New GSS Punch-out E-commerce Application

The screenshot shows the Government Scientific Source (GSS) punch-out e-commerce application. The header includes the GSS logo and contact information: 'Government Scientific Source, Inc.', '12351 Sunrise Valley Dr. Reston, VA 20191-3415', 'Phone: (800) 248-8030 Fax: (703) 734-1803', and 'Email: sales@govsci.com'. The navigation menu includes: HOME, PRODUCTS & SUPPLIERS, STOCKROOM ITEMS, CONTACT, ITEM REQUEST, QUICK ORDER, FAVORITES LIST, and CART. The main content area is divided into two sections: 'Search Products' and 'Available Vendors'. The 'Search Products' section has a search bar and a 'Total Vendor Count: 90' indicator. The 'Available Vendors' section lists 30 vendors in three columns, including Ace Glass, Agilent Technologies, BD Discovery Labware, BD Microbiology, Bet-Ad, Best Glove, Bio-Rad Life Science, Biohit Inc, Boekel, Brandtech Scientific, Cerilliant, Chase Scientific, Chem Service, Chemglass Inc, Cole Parmer, Corning, Dako, Denver Instruments, Drummond Scientific, Eberbach, Electron Microscopy Sciences, Elvex, EMD Chemicals, EP Scientific Products LLC, Eppendorf, Fisher Safety, Grace Davison Discovery Sciences, Greiner Bio-One, Hach Company, Hamilton, Harvard Apparatus, Heathrow Scientific, Horiba Instruments, I-Chem, Ika, Inorganic Ventures, IRIS StatSpin Sample Processing, Jelo Tech, Jencons Scientific, Kimberly Clark Scientific, Kimble, Kontes, Lab Safety, LabChem Inc, Lakeland Industries Inc, LaMotte Chemical, Matrix Technologies, Millipore Corporation, Molecular BioProducts, Nalge, National Scientific, New England Biolabs, Newport, Norlake, Nunc, Ohaus Corporation, Owl Reparation Systems, Parker Hannifin, Perkin Elmer, QIAGEN, Corpak, Restek, Ricca Chemical, Sarstedt, Sartorius Acculab, Sartorius Mechatronics Corp, Savillex, Scientific Industries Inc, Scientific Instrument Services, Inc, Seahorse Bioscience, SGE, Shimadzu, Sigma Aldrich, Teledyne Leeman Labs, Thermo Barnstead, Thermo Electron, Thermo IEC, Thermo LabSystems, Thermo Lindbergh Blue M, Thermo Orion, Thermo Precision, Thermo Revco, Thermo Shandon, Thorlabs, LVP, Waters, Whatman, Wheaton, WTW Measurement, and YSI Incorporated.

Overview

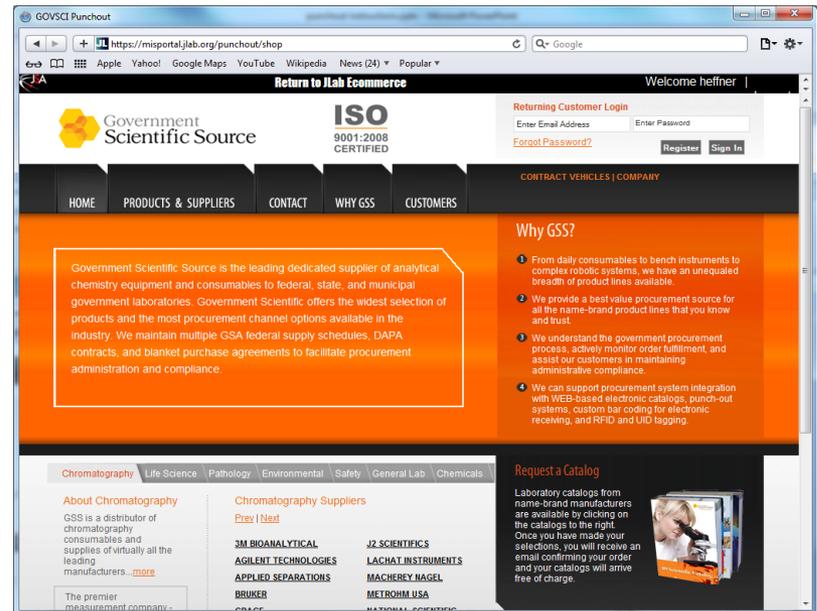

- The new E-Commerce system is a punch-out system
 - Start-to-finish integrated shopping experience
 - Better integration with vendors
 - Better descriptions, images, price breaks, etc.
 - Know exactly what you are ordering
- Some things have not changed
 - One-stop shopping for E-commerce, Stockroom, Freestock
 - E-Commerce orders are routed for signature in the Requisitions system
 - Stockroom, Freestock orders are fulfilled as always

Punch-out: A store within a store

- There are several punch-out vendors in the new system: Grainger, Newark, FSI, Digi-Key and others
- The experience starts with GSS, but when you click on a vendor, that vendor's site takes over
 - Different user experience for each punch-out vendor
 - Double-checkout process
 - Must check-out for each vendor
 - Final check-out for GSS

Cookies

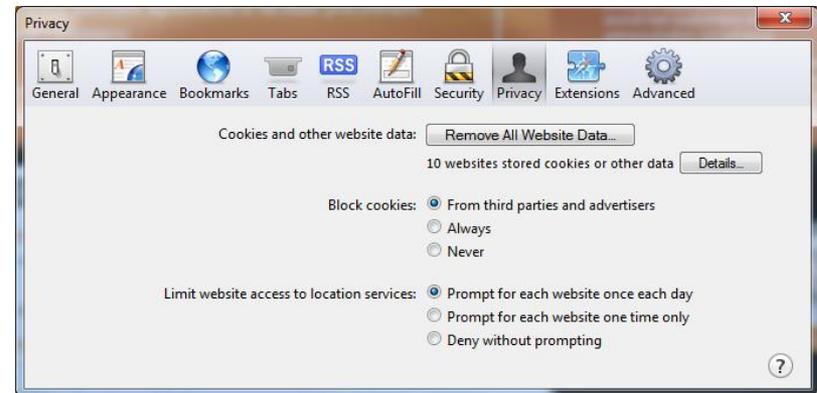

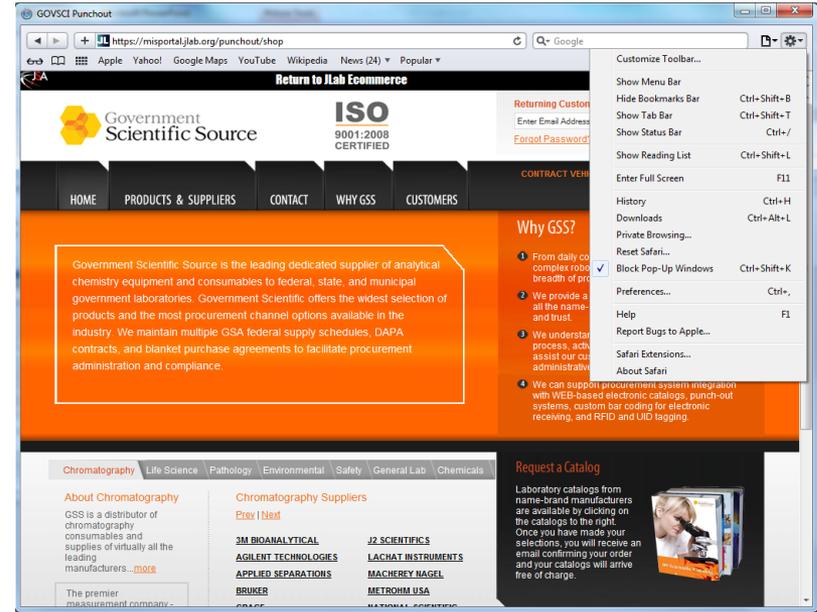

- Because punch-out is a store within a store, cookies must be enabled properly
 - This is especially important for Macs (Safari and Firefox), which disable these cookies by default
 - Windows should work by default, but if you have customized your cookie settings, you might have to make changes to use this new system.
- The next few slides are how to configure your cookies for each browser. You can skip ahead if your cookies are configured properly. If you see an orange layout when you go to the site, as shown on the right, then cookies are not configured properly.

Cookies: Configuring Safari

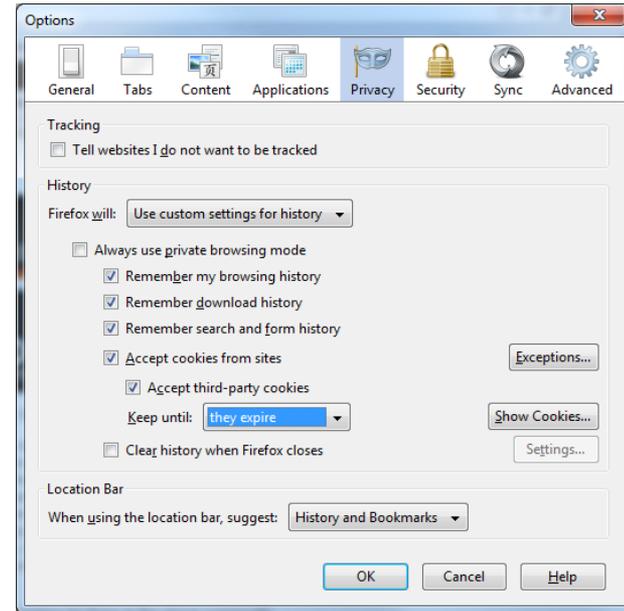

- If you are on a Mac, chances are that you are using Safari. The icon for Safari is shown in the upper right-hand corner of this page.
- On the upper right-hand side of the browser, you will see a gear icon. Click on this, and then click on the “Preferences” option.
- No, click on the “Privacy” tab and for the “Block cookies” option, change this to “Never”
- If you are already in the E-Commerce website, you will need to refresh your browser.

Cookies: Configuring Firefox

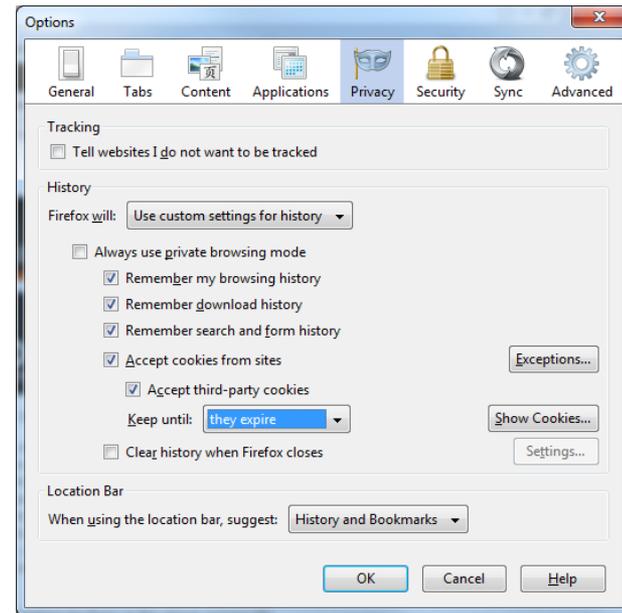

- In the Firefox menu, to “Tools” and then “Options”
- Click on the “Privacy” tab.
- If cookies are not working, then under the “History”, “Firefox will” section, you have likely selected “Use custom settings for history”. If this is the case, then click on the “Accept third-party” cookies checkbox below. If you do not see that checkbox, please contact helpdesk@jlab.org for assistance.

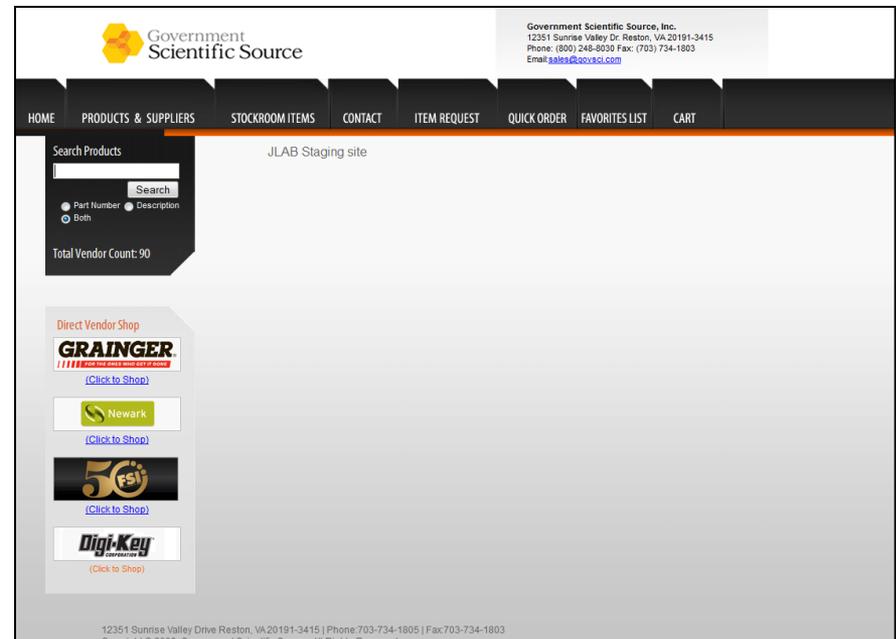

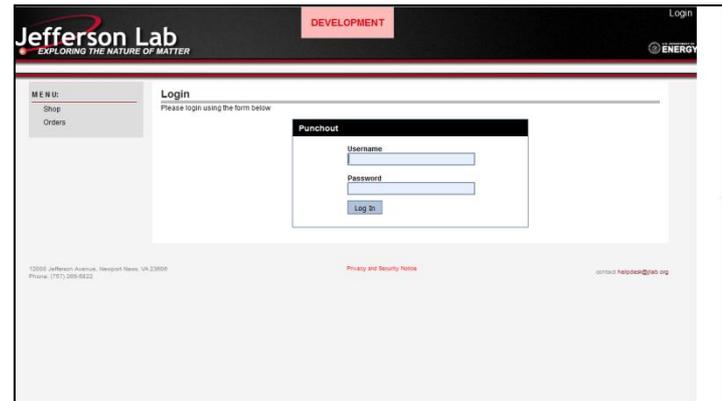

Cookies: Configuring Internet Explorer

- In the Internet Explorer (IE) menu, to “Tools” and then “Options”
- Click on the “Privacy” tab.
- Click on the “Advanced” button.
- If cookies are not working, then the “Override automatic cookie handling” box should be checked. Un-check this box.

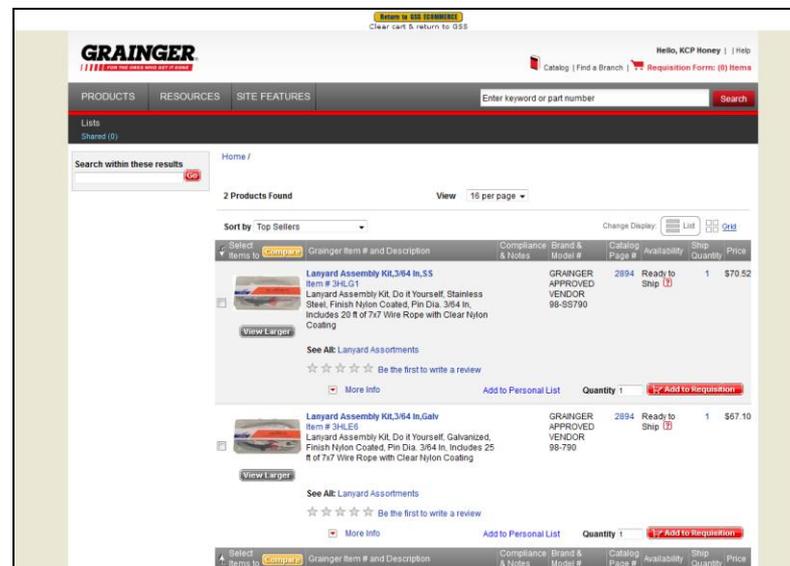

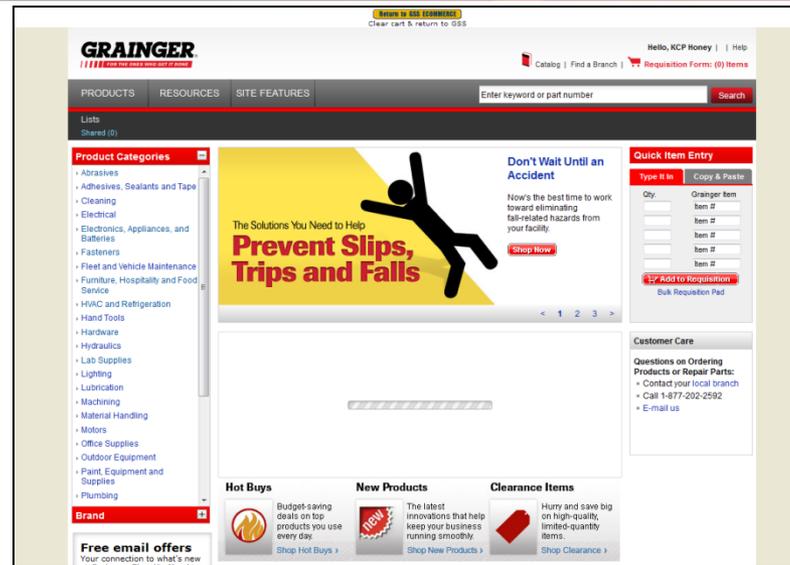

- Navigate to the GSS E-Commerce System
 - JLab Insight
 - Your personal bookmarks
 - Procurement web page
 - Link
 - <https://misportal.jlab.org/punchout/shop>
- You will be prompted for your JLab username and password

Choose a Vendor

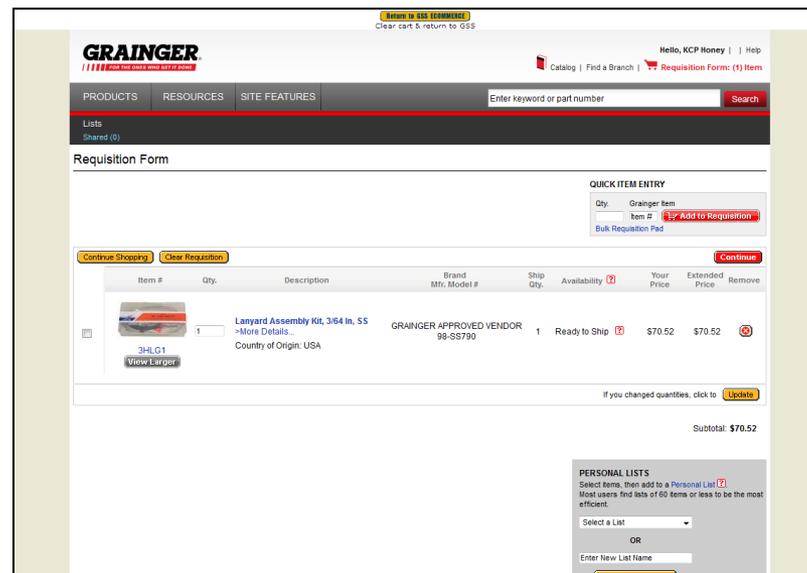

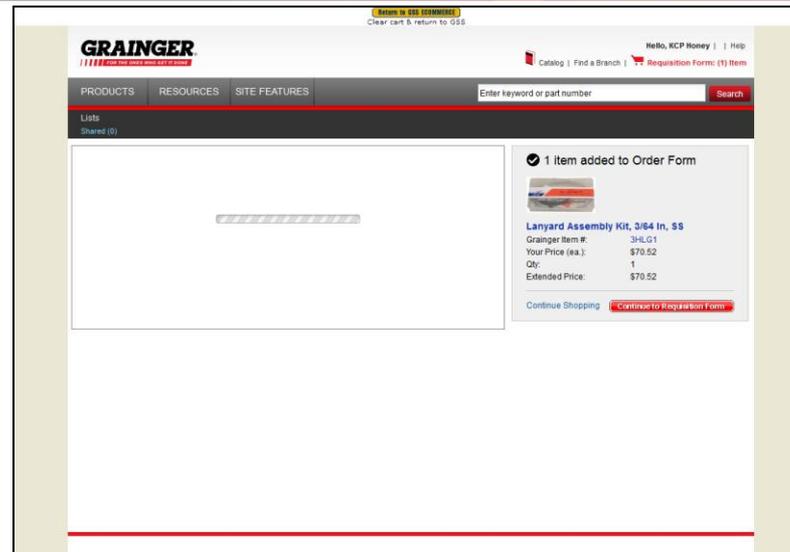

For purposes of this demo, we choose the Grainger Website

- Grainger is a punch-out type catalog. Click on the icon on the left of the screen.
- You will be forwarded to the Grainger punch-out site.
- Note the GSS button at the top of the page. Click on this only if you want to return to GSS without buying anything from Grainger.
- Navigate through the Grainger site to find the item you want to buy. You can use the search or browse functionality – note that any searches will find items in the Grainger store only.

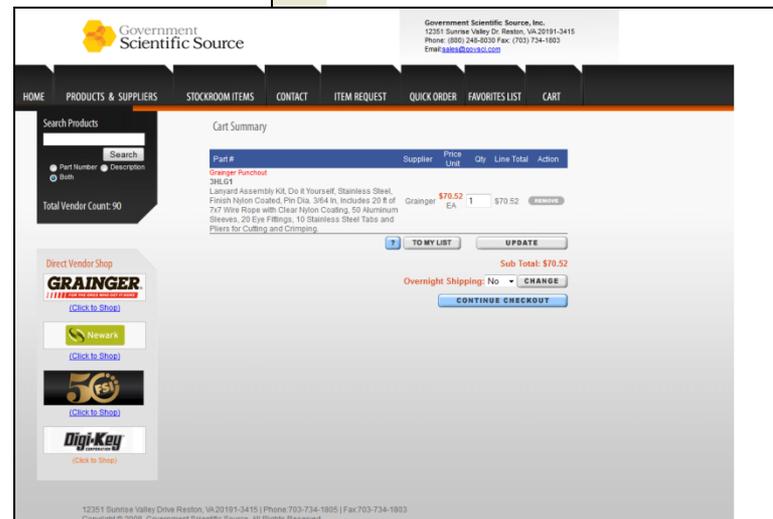

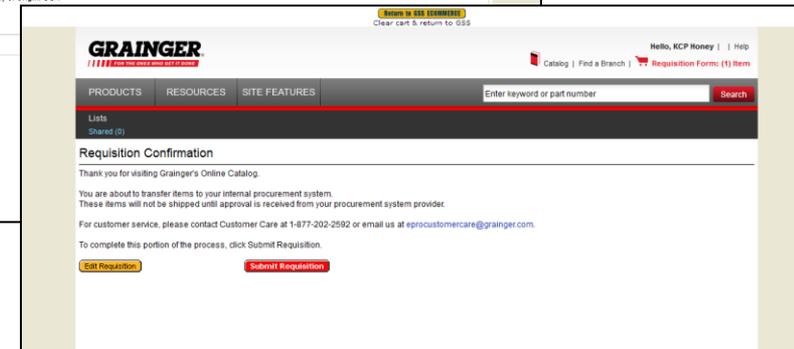

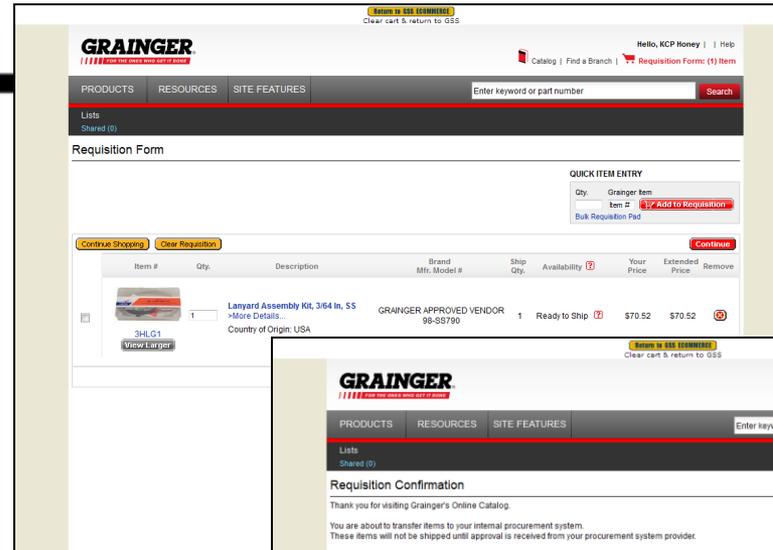

Add item(s) to cart

- As you find the item(s) you are looking for, add them to your shopping cart. The button in the Grainger punch-out catalog says “Add to requisition”.
- Note that as you add items to your cart, you are only adding them to the Grainger cart.
- When you have added all items to your cart, click on the “Continue to Requisition Form” button or the “Requisition Form” link at the top right-hand side of the page.

Check out from Grainger's system

- After you go to Grainger's cart and review the items, you now have to bring this cart back to GSS.
- Click the "Continue" button on the shopping cart (or requisition) screen.
- On the next screen, click "Submit requisition" to continue back to GSS.
- Now you are back in the GSS system. At this point, you can choose to return to shopping or continue the checkout to the JLab system.
- For purposes of this demo, we continue shopping by clicking on the Newark icon on the left-hand side of the screen.

Using the Newark punch-out system

- Now we continue our shopping in the Newark system. Like Grainger, Newark uses the punch-out model, which means you will be forwarded to Newark's site. Any searching or browsing you do here will be limited to Newark products.
- As before, you can shop the punch-out site by browsing or searching or using features unique to Newark, such as the "Quick Buy" section at the top right of the screen.

The screenshot shows the Newark website homepage. At the top, there is a navigation bar with the Newark logo and 'element14'. A search bar is located in the top right, with a 'Find' button and a shopping cart icon showing '\$0.00 (0 Items)'. Below the navigation bar, there are several menu items: 'HOME | PRODUCTS | SERVICES | SOLUTIONS | COMMUNITY | ORDER | MY ACCOUNT'. The main content area features a large banner for 'ADOPT THE LATEST TECHNOLOGIES INTO YOUR DESIGNS' with a 'learn more' button. Below this, there are 'Featured Products' including Honeywell, FLUXE, and Agilent Technologies. On the right side, there is a 'Quick Buy' section with a form for entering a Newark Part Number and quantity, and a 'Tektronix' advertisement for a digital multimeter.

The screenshot shows the Newark website product search results page. The search results are for 'Connectors' and show 2,058,575 products found. The page is divided into several sections: 'Filter' (with options for 'In stock', 'RoHS compliant', 'Exclude Direct Ship', and 'Special Order Items'), 'Manufacturer' (with a 'Select Manufacturers' dropdown), and 'Products' (with a 'Show All Products' link). The 'Products' section is organized into categories: 'Connectors' (with sub-categories like Accessories, Audio/Video, Circular, Connector Kits, Contacts, D Subminiature, Digital Video, Electrical, Fiber Optic, J/D, IC & Component Sockets, Industrial, Inter Series Adaptors, Memory Sockets, Modular, Patch Panels, PC Board, Plug & Socket, Power Entry, Rectangular Power, RF / Coaxial, Terminal Blocks, Terminals, Test, and More Connectors), 'Automation & Process Control' (with sub-categories like Automation Signaling, Contactors & Accessories, Control Gear & Switch Gear, Industrial Computing & PLCs, Machine Safety & Limit Switches, Motors & Drives, Panel Displays & Instrumentation, Pneumatics, Process Controllers, Programmers & Indicators, Signal Conditioning, Temperature Controllers, Temperature Controllers - PLC, Thermostats, More Automation & Process Control, and Plug & Socket), 'Enclosures, Racks & Cabinets' (with sub-categories like Accessories, Cabinet Racks, Enclosures, and More Enclosures, Racks & Cabinets), and 'Power & Line Protection' (with sub-categories like Accessories and DC - AC Inverters).

Purchase and check-out

- On the Newark site, when you choose to buy an item, it's added to your cart. You can choose to checkout at that point by clicking the button that pops up in the upper-right corner of your screen. Alternatively, you can continue shopping and come back to your cart later.
- As with Grainger (and all punch-out vendors), the check-out process will show you your shopping cart so that you can review and click the "Checkout" button to continue.
- To bring your cart back to GSS, you need to click on the "Send Order" button that shows up on the following screen.

The screenshots illustrate the purchasing process on the Newark element14 website:

- Top Screenshot:** Shows the product search results for "MODEL B - ASSEMBLED BOARD ONLY". A notification indicates the item has been added to the cart. The shopping cart total is \$35.00 (1 item).
- Middle Screenshot:** Shows the "Shopping Cart" page with a table of items. The table includes columns for Line Number, Newark Part Number, Qty, Manufacturer Name & Part Number, Product Description, RoHS, Avail, Price, and Extended Price.
- Bottom Screenshot:** Shows the checkout page with a "Send Order" button. A message states: "Your order is not placed until you click the Send Order button." The order total is \$35.00.

Line Number	Newark Part Number	Qty	Manufacturer Name & Part Number	Product Description	RoHS	Avail	Price	Extended Price
1	43W5302	1	RASPBERRY-PI RASPBERRY-M00B-512M	MODEL B - ASSEMBLED BOARD ONLY; Silicon Manufacturer:Broadcom; Core Architecture:ARM; Core Sub-Architecture:ARM11; Silicon Core Number:BCM2835; Kit Contents:Assembled Board Only ;RoHS Compliant: Yes	Yes	20	\$35.00	\$35.00

Back to GSS

- Now we are brought back to the GSS system, and as you can see, both the parts from Grainger and Newark are in the GSS shopping cart.

Using static catalogs

- Next, let's add some items from a static catalog to our cart. For purposes of this demo, we will use the Agilent Technologies catalog.
- Static catalogs are different than punch-out catalogs in that they are hosted by GSS itself. You can search for parts across all static catalog vendors by using the search form in the upper right-hand side of the screen, or you can browse static catalog vendors by click on the “Products and Suppliers” tab at the top (shown in the upper image on the right).
- To add an item to the cart, just enter the quantity in the space provided and click the “Cart” icon.

Ordering from the stockroom

- The JLab stockroom (and Freestock) are just static catalogs in the system. To navigate, click on the “Stockroom Items” tab at the top. You can then view items or use the links at the left to browse by category. If you know the stockroom item number, you can search for it using the search function at the top left of the screen.
- As with any static catalog, to purchase the item, enter the quantity desired and click on the “Cart” icon.

Ordering from the stockroom: part search

- The JLab stockroom (and Freestock) are just static catalogs in the system. To navigate, click on the “Stockroom Items” tab at the top. You can then view items or use the links at the left to browse by category. If you know the stockroom item number, you can search for it using the search function at the top left of the screen.
- As with any static catalog, to purchase the item, enter the quantity desired and click on the “Cart” icon.

The screenshot displays the Government Scientific Source website interface. At the top, the logo and contact information for Government Scientific Source, Inc. are visible. The navigation menu includes links for HOME, PRODUCTS & SUPPLIERS, STOCKROOM ITEMS, CONTACT, ITEM REQUEST, QUICK ORDER, FAVORITES LIST, and CART. The main content area shows search results for the part number 340010000. The search results table lists the part number, supplier (JLAB_STOCK), unit price (\$12.26), and unit quantity (EA). The description of the part is: BOLDING ACCESSORIES, PROPANE KIT, 2 PIC KIT (CONTAINS: (1) 20 FL. OZ FAT BOY PROPANE BOTTLE & (1) 1/2 2317 PEXICAL FLAME TORCH HEAD AND TIP, T-3 AND T-5), BENZOMATIC # 2880040, MSCIND # 00815670. There are 'ADD TO CART' buttons next to the item details.

Part #	Supplier	Sell Price	Unit	Qty	Action
340010000	JLAB_STOCK	\$12.26	EA		<input type="text"/> <input type="button" value="Cart"/>

Checking out!

- When you are finally done shopping all punch-out and static catalogs, you are ready to check out to the JLab system. From your shopping cart, click the “Continue Checkout” button.
- This will bring you to the JLab system, where you can enter the POA for each item. Note that E-Commerce items are handled slightly differently than stockroom items. You will be able to select any POA for E-Commerce items, but the stockroom POAs are limited to those for which you have authorization.
- When you are done entering the POAs, click on the “Create Order” button. E-commerce items will be routed for signature in the Requisition system, and on the next screen, you will see any PRs created by this order.

Following-up with GSS

- Once signatures have been completed for an E-Commerce order, it gets sent automatically to GSS. At this time, you will receive an Order Confirmation email from GSS. A PDF will be attached to that email with the full details of your order.

Click on Sign to add text and place signature on a PDF File.

Thank you for placing your order with GSS. We hope you enjoyed your ordering experience. Below is your order confirmation for your product(s). Please review the information for accuracy.

We want to hear from you!
Please take a few minutes to tell us about your ordering experience by clicking on the link below. We greatly appreciate your feedback! It is critical in helping us to better meet your needs.
[Click this Survey Link](#)

We will email separate shipment confirmations as your products are dispatched for delivery.

Thank you,
Mike Mendrysa
Sales Team Leader
