

DSG-R&D Phoebus Meeting Minutes

Date: February 24, 2022

Time: 11:00PM – 12:00PM

Attendees: Mary Ann Antonioli, Peter Bonneau, Aaron Brown, Pablo Campero, Brian Eng, George Jacobs, Mindy Leffel, Tyler Lemon, Marc McMullen, and Amrit Yegneswaran

1. Miscellaneous

Mary Ann Antonioli, Peter Bonneau, and Brian Eng

1. Tab Layout of screens
 - Especially with nested tabs, need to make sure hierarchy is maintained
 - All widgets are loaded and run even when the tab isn't being displayed
 - Use sparingly, if at all
 - Can use the similarly named "Navigation Tabs", if required
 - Imports a .bob file into the tab; no resource issues as only the active tab is loaded
2. Tabs vs action buttons
 - In either case, separate .bob files will need to be created; makes switching between the two a matter of using a different top level screen
3. Alarm Handler
 - Need alarm server running at a minimum to interact with alarms
 - Requires several third-party programs running in background to function
