1. Miscellaneous

Mary Ann Antonioli and Brian Eng

1. Possible alternatives to blinking indicator
 - Change shape of indicator – **text symbol works, but changing color needs rules**
 - Square, circle, star, etc.
 - Use text
 - Colored Unicode characters – **emojis currently aren't rendered (all show up as same empty square)**
 - Use image / shading – **symbol (basically an image) works, need to test with transparency though**
 - Horizontal / vertical lines, crosshatch
 - Might have issues with scaling – **going from 100% to 200% didn't seem to cause any issues, haven't tried going smaller**
