

### Revision History

| <b>rev #</b> | <b>Statement of revision</b>                               | <b>Effective date</b> |
|--------------|--|-----------------------|
| 5            | update to entire manual: formatting, references, and style | March 2017            |
| 4            | all sections reviewed and updated as needed                | July 2010             |
| 3            | all sections reviewed and updated as needed                | February 2003         |
| 2            | three year review - entire document revised                | May 1999              |
| 1            | entire document reviewed and revised as needed             | January 1996          |
| 0            | initial use  | January 1994          |

CEBAF Radiation Safety Handbook from 1990 became the Radiological Control Manual in January 1994

## Table of Contents

|           |  |      |
|-----------|--|------|
| Chapter 1 | Excellence in Radiological Control                                   | 1-1  |
| Part 1    | Jefferson Lab Radiological Control Standard                          | 1-1  |
| 111       | Radiological Control Policy  | 1-1  |
| 112       | Statutory Compliance and Sound Practice                              | 1-2  |
| 113       | Changes to the RadCon Manual and Radiation Protection Program        | 1-3  |
| Part 2    | Leadership in Radiological Control                                   | 1-4  |
| 121       | Senior Management Commitment   | 1-4  |
| 122       | Worker Roles and Responsibilities                                    | 1-5  |
| 123       | Enhanced Training and Increased Awareness of Radiological Conditions | 1-6  |
| 124       | Marginal Radiological Control Performance                            | 1-6  |
| 125       | Reviews and Critiques  | 1-7  |
| Part 3    | Improving Radiological Control Performance                           | 1-7  |
| 131       | Radiological Performance Goals                                       | 1-7  |
| 132       | Management of Radiological Control Goals and Performance Indicators  | 1-8  |
| 133       | Radiological Control Performance Reports                             | 1-8  |
| 134       | Assessments  | 1-8  |
| 135       | Independent Verification   | 1-9  |
| Part 4    | Radiation Control Department   | 1-9  |
| 141       | Functions and Staffing   | 1-9  |
| 142       | Relationship Between Radiological Control Technicians and Workers    | 1-10 |
| <br>      |  |      |
| Chapter 2 | Radiological Standards   | 2-1  |
| Part 1    | Administrative Control Levels and Dose Limits                        | 2-1  |
| 211       | Quantities and Units Used in Radiation Control                       | 2-1  |
| 212       | Administrative Control Level   | 2-1  |
| 213       | Radiation Worker Dose Limits for Routine Occupational Exposure       | 2-3  |
| 214       | Planned Special Exposures for Radiological Workers                   | 2-4  |
| 215       | Dose Limits to Minors  | 2-5  |
| 216       | Dose Limit for Visitors and Members of the General Population        | 2-6  |
| 217       | Embryo/Fetus Dose Limits   | 2-6  |
| 218       | Special Control Levels   | 2-7  |
| Part 2    | Contamination Control and Control Levels                             | 2-8  |
| 221       | Personnel Contamination Control                                      | 2-8  |
| 222       | Contamination Control Levels   | 2-9  |
| 223       | Airborne Radioactivity Control Levels                                | 2-10 |
| Part 3    | Posting  | 2-10 |

## Table of Contents

|           |   |      |
|-----------|---|------|
| 231       | General Requirements  | 2-10 |
| 232       | Controlled Areas  | 2-11 |
| 233       | Radiologically Controlled Areas   | 2-11 |
| 234       | Radiological Areas  | 2-12 |
| 235       | Radioactive Material Areas  | 2-13 |
| 236       | Hot Spots   | 2-13 |
| 237       | Exceptions to Posting Radiological Areas and Radioactive Material Areas | 2-13 |
| 238       | Exclusion Areas   | 2-14 |
| Chapter 3 | Conduct of Radiological Work  | 3-1  |
| Part 1    | Planning Radiological Work  | 3-1  |
| 311       | Planning  | 3-1  |
| 312       | Requirements  | 3-1  |
| 313       | Planning for Maintenance, Operations and Modifications                  | 3-2  |
| 314       | Infrequent or First-time Activities                                     | 3-3  |
| 315       | Moveable Shielding  | 3-3  |
| 316       | Work Control Procedures and Documents                                   | 3-4  |
| 317       | Minimization of Internal Exposure                                       | 3-5  |
| Part 2    | Work Preparation  | 3-6  |
| 321       | Radiological Work Permits   | 3-6  |
| 322       | Use of Radiological Work Permits  | 3-6  |
| 323       | Radiological Work Permit Preparation                                    | 3-7  |
| 324       | Pre-job Briefings   | 3-7  |
| 325       | Personal Protective Equipment and Protective Clothing                   | 3-8  |
| Part 3    | Entry and Exit Requirements   | 3-8  |
| 331       | Controlled Areas  | 3-9  |
| 332       | Radiological Buffer Areas   | 3-9  |
| 333       | Radioactive Material Areas  | 3-9  |
| 334       | Entry into Radiologically Controlled Areas                              | 3-10 |
| 335       | Contamination and Airborne Radioactivity Areas                          | 3-11 |
| 336       | Visitor Entry Restrictions  | 3-12 |
| 337       | Controlling the Spread of Contamination                                 | 3-12 |
| 338       | Monitoring for Personnel Contamination                                  | 3-12 |
| Part 4    | Radiological Work Controls  | 3-13 |
| 341       | Requirements  | 3-13 |
| 342       | Work Conduct and Practices  | 3-13 |

## Table of Contents

|           |   |      |
|-----------|---|------|
| 343       | Logs and Communications   | 3-14 |
| 344       | Review of Work in Progress  | 3-14 |
| 345       | Stop Radiological Work Authority  | 3-15 |
| 346       | Response to Abnormal Situations   | 3-15 |
| 347       | Contamination Control   | 3-16 |
| 348       | Controls for Benchtop Work, Laboratory Fume Hoods, Sample Stations and Gloveboxes | 3-17 |
| 349       | Controls for Hot Particles  | 3-18 |
| Part 5    | Evaluation of Performance   | 3-19 |
| 351       | Post-job Reviews  | 3-20 |
| 352       | Lessons Learned   | 3-20 |
| Part 6    | Considerations for the Design and Control of Facilities                           | 3-20 |
| 361       | Design Considerations   | 3-20 |
| 362       | Control Considerations and Procedures   | 3-21 |
| 363       | Environmental Conditions  | 3-21 |
| 364       | Other Workplace Hazards   | 3-21 |
| Chapter 4 | Radioactive Materials   | 4-1  |
| Part 1    | Radioactive Material Identification, Storage and Control                          | 4-1  |
| 411       | Requirements  | 4-1  |
| 412       | Labeling of Radioactive Materials   | 4-2  |
| 413       | Activated Materials Surveys   | 4-3  |
| 414       | Tracking of Radioactive Material  | 4-3  |
| 415       | Radioactive Material Packaging  | 4-4  |
| 416       | Radioactive Material Storage  | 4-4  |
| 417       | Accountability  | 4-5  |
| Part 2    | Release and Transportation of Radioactive Material                                | 4-5  |
| 421       | Release to Uncontrolled Areas   | 4-5  |
| 422       | Transportation of Radioactive Material  | 4-5  |
| Part 3    | Radioactive Sealed Source Controls  | 4-6  |
| 431       | Definitions   | 4-6  |
| 432       | Procurement, Receipt and Shipment of Radioactive Material and Sources             | 4-6  |
| 433       | Movement and Use of Sources   | 4-8  |
| 434       | Custody of Sources  | 4-8  |
| 435       | Storage of Sources  | 4-8  |
| 436       | Records and Inspections   | 4-9  |

## Table of Contents

|           |   |      |
|-----------|---|------|
| Part 4    | Source Accountability and Leak Testing                    | 4-10 |
| 441       | Inventory   | 4-10 |
| 442       | Leak Testing  | 4-10 |
| 443       | Missing Sources   | 4-11 |
| 444       | Leaking Sources   | 4-11 |
| 445       | Documentation   | 4-11 |
| Part 5    | Radiation-generating Device Controls                      | 4-11 |
| 451       | Definition  | 4-11 |
| 452       | Custody and Storage                                       | 4-12 |
| 453       | Inspection  | 4-12 |
| 454       | Documentation   | 4-12 |
| Part 6    | Radioactive Waste Management                              | 4-12 |
| 461       | Introduction  | 4-12 |
| 462       | Collection of Radioactive Waste                           | 4-13 |
| 463       | Waste Minimization  | 4-13 |
| 464       | Mixed Waste   | 4-13 |
| Part 7    | Control of Radioactive Liquids and Airborne Radioactivity | 4-14 |
| 471       | Minimization and Control of Radioactive Liquid Wastes     | 4-14 |
| 472       | Control of Airborne Radioactivity                         | 4-14 |
| Part 8    | Support Activities  | 4-14 |
| 481       | Decontamination   | 4-14 |
| 482       | Vacuum Cleaners and Portable Air-handling Equipment       | 4-15 |
| Chapter 5 | Radiological Health Support Operations                    | 5-1  |
| Part 1    | External Dosimetry  | 5-1  |
| 511       | Types of Personnel Dosimetry                              | 5-1  |
| 512       | Requirements  | 5-1  |
| 513       | Self-reading Pocket Dosimeters                            | 5-2  |
| 514       | Area Monitoring Dosimeters                                | 5-3  |
| 515       | Circumstances Requiring an Exposure Investigation         | 5-3  |
| Part 2    | Internal Dosimetry  | 5-3  |
| Part 3    | Respiratory Protection Program                            | 5-4  |
| Part 4    | Handling Radiologically Contaminated Personnel            | 5-4  |
| Part 5    | Radiological Monitoring                                   | 5-4  |
| 551       | Requirements  | 5-5  |
| 552       | Controlled Area Radiation Monitors                        | 5-5  |

## Table of Contents

|           |   |      |
|-----------|---|------|
| 553       | Contamination Control Surveys   | 5-6  |
| 554       | Airborne Radioactivity Monitoring   | 5-7  |
| Part 6    | Instrumentation and Calibration   | 5-7  |
| 561       | Availability at Jefferson Lab   | 5-7  |
| 562       | Use of Radiation Monitoring Instruments   | 5-8  |
| 563       | Inspection, Calibration and Performance Tests   | 5-9  |
| 564       | Maintenance   | 5-9  |
| 565       | Calibration Facilities  | 5-10 |
| Chapter 6 | Training  | 6-1  |
| Part 1    | Radiological Control Training and Qualification   | 6-1  |
| 611       | Purpose   | 6-1  |
| 612       | Standardization   | 6-1  |
| 613       | General Provisions  | 6-2  |
| 614       | Instructor Training and Qualification   | 6-3  |
| Part 2    | General Employee Radiological Training  | 6-3  |
| 621       | Site Personnel  | 6-3  |
| 622       | Radiological Safety Orientation for Visitors, Tour Groups and Other Untrained Individuals | 6-4  |
| Part 3    | Radiological Worker Training  | 6-4  |
| 631       | General Provisions  | 6-4  |
| 632       | Radiation Worker I  | 6-5  |
| 633       | Radiation Worker II   | 6-5  |
| 634       | Specialized Training  | 6-5  |
| Part 4    | Radiological Control Technician Training  | 6-6  |
| 641       | General Provisions  | 6-6  |
| 642       | Eligibility and Training  | 6-6  |
| 643       | Continuing Training   | 6-7  |
| 644       | Supervisors   | 6-7  |
| Part 5    | Other Radiological Training   | 6-8  |
| 651       | Radiological Control Personnel  | 6-8  |
| 652       | Assigned Radiation Monitors   | 6-8  |
| 653       | Radiographers and Radiation-generating Device Operators                                   | 6-9  |
| 654       | Emergency Response Personnel  | 6-9  |
| Chapter 7 | Records   | 7-1  |

## Table of Contents

|        |  |      |
|--------|--|------|
| Part 1 | Requirements   | 7-1  |
| 711    | Purpose  | 7-1  |
| 712    | Records Management Program                           | 7-1  |
| 713    | Recordkeeping Standards                              | 7-2  |
