Details:

Listed below are coordinates for 2 additional foil targets located approximately 6 inches downstream from the 2 Hy-Cal Detector uprights and approximately 1 meter above the Hall B beamline. For reference please see DT_B831. The coordinates are in millimeters with the origin at the Hall B target center. Positive Z follows beam centerline, positive X is beam left looking downstream and positive Y is in the vertical direction.

Points	Z	X	Y
30 (beam right)	-8338.3	-1513.5	1302.6
31 (beam left)	-8341.6	1485.8	1298.0
