## **DATA TRANSMITTAL**

**TO:** E. Daly, B. Carpenter

**DATE:** Jun 7, 2002

**FROM:** Chris Gould

**Checked:**

**# :** Z784

### **DETAILS:**

Below are the results of the SNS cryomodule supply end cap 03 and bridging ring survey performed on June 6, 2002. A coordinate system was established with the central axis running through the aperture of the end plate. The bayonet box was used to control roll. The end plate sealing surface was used to define Z = 0. The bridging ring results are based on stick mic measurements taken every 45 degrees clockwise looking downstream with 0-180 at 12 o'clock. Values are in inches.
