

EXPERIMENT DESCRIPTION AND REQUIREMENTS

THE SUBMITTED INFORMATION IS CONSIDERED FROZEN. MODIFICATIONS TO THE EXPERIMENT SHOULD BE APPROVED BY THE DIVISION MANAGEMENT.

Experimental Hall:

Experiment Number:

Days Approved:

Estimated Installation Time:

Estimated Checkout Time:

Spokespersons:

Short (Technical) Description of the Experiment (max 100 words)

List Beam Energies and Beam Days: (e.g. 30 Days at 11 GeV, 20 Days at 8 GeV)

List Range of Beam Currents: (e.g. 10-60 μ A)

**Base Equipment Used
(including description of conditions)**

**Modifications to Base Equipment
(or use of base equipment with different conditions)**

New Equipment

Target Requirements

**Beam Line Requirements
(including description of conditions)**

Utilities Requirements

Power (MW)

Power Supplies (V, I)

Cryogenics (T, g/s)

LCW (gpm)

Cabling (#, ft)

Other

Additional Requirements

Hazardous Materials

Flammable gases

Lasers

Pressure Vessels

Platforms or Scaffolding

Other
