

First Announcement

We are pleased to announce that the 32nd National Nuclear Physics Summer School (NNPSS 2021) will be held virtually from June 21 to 25, 2021. The School is organized jointly by Indiana University and Universidad Nacional Autónoma de México.

The National Nuclear Physics Summer School has been held each summer since 1988, and is a world class leading summer school on nuclear physics. It is designed for second and third year experimental or theoretical Ph.D. graduate students who are well into a research project, or researchers in their first postdoc position. The program includes lectures and special topic seminars by internationally renowned physicists.

Lecture topics and confirmed speakers

Nuclear Matter and Structure, Thomas Papenbrock (University of Tennessee, Knoxville)
Fundamental Symmetries, Emilie Passemar (Indiana University, Bloomington)
Nuclear Astrophysics, Aurora Tumino (INFN, Italy)
Hadron Spectroscopy and Reactions, Matthew Shepherd (Indiana University, Bloomington)
Physics at the Electron-Ion Collider, Abhay Deshpande (Brookhaven National Laboratory)
Radioactive Ion Beams, María José García Borge (Instituto de Estructura de la Materia, CSIC)
Strong Interactions on the Lattice, Zoreh Davoudi (University of Maryland)
Relativistic Heavy Ion Collisions, Alejandro Ayala (Instituto de Ciencias Nucleares, UNAM)

Application

Application is open in the NNPSS 2021 website. Deadline for application is June 1, 2021. Accepted students will be notified before June 15, 2021. NO registration fee will be charged to accepted students.

Local Organizing Committee

Libertad Barrón-Palos (UNAM, chair), Roelof Bijker (UNAM), César Fernández-Ramírez (UNAM), W. Michael Snow (IU), Adam P. Szczepaniak (IU, chair), Víctor M. Velázquez (UNAM)
