

AccelApp'24 *Pre-conference* PUFFIn Workshop

March 16-17, 2024

PUFFIn (Penelope User Friendly Fast Interface) is a Monte Carlo radiation transport program to simulate and map electron and photon dose in materials. This interface can create 2D and 3D maps which will help visual dose distribution in various materials, including medical products, polymers, etc.

The two-day workshop will be conducted at the Sheraton Waterside Hotel in Norfolk, VA in conjunction with the AccelApp'24 Conference.
